UNIVERSITY OF CAMBRIDGE CONDITION SURVEYING

KEY FACTS

CLIENT
UNIVERSITY OF CAMBRIDGE

PROJECT DESCRIPTION

Our work covers the undertaking of condition surveys and preparation of reports for the entire estate over a 7 year cycle programme. Reports cover a 10 year capital works Forward Maintenance Plan scheduled into Short, Medium and Long Term periods. A proportion of the estate is of grade 1 and 2 listing and the majority of buildings are within a conservation area.

We also provided support services for additional surveys including roof safety assessments, site trip hazards and staircase evaluations.

We have a long standing and valued relationship with the University of Cambridge and our work is part of a major and on-going commission undertaken on an annual cyclical basis.
